

Mailfinisher 9500

Highly intelligent
commercial in-line
print-to-mail
pressure sealer.

Print, Fold & Seal in 1 step

Features

Auto Slide Conveyor - enables processing continuous jobs.

Conveyor extends automatically & stacks up to 600 sheets. Its easy accessibility to the stacked forms being processed allows you to process continuous jobs.

Double Detect with Auto By-pass

An integrated imaging system detects unrecognisable papers & double feeds, diverting them into the by-pass tray

Huge Duty Cycle

Large monthly duty cycle of up to 200,000 sheets.

Advanced Sealing System

Uniquely designed sealing system guarantees extremely quiet & smooth job processing with flawless sealing performance & quality

The Mailfinisher 9500 offers heavy duty print-to-mail pressure sealing combined with security solutions. It provides exceptional sealing quality with 2 pairs of press rollers and is capable of processing 200,000 forms per month
